

# National Social Studies and Science Standards Alignment

Junior Great Books Nonfiction Inquiry provides nonfiction content that educators can use to connect their English Language Arts curriculum to content areas in science and social studies. This chart details the alignment of Nonfiction Inquiry units with the disciplinary core ideas in the Grade 3 NextGen Science Standards (NGSS) and the Grade 3 themes outlined by the National Council for Social Studies (NCSS).

## Unit 1: “Can Robots Be People Too?”

### NGSS Grade 3 Disciplinary Core Ideas

#### **ETS1.A: Defining and Delimiting Engineering Problems**

Possible solutions to a problem are limited by available materials and resources (constraints). The success of a designed solution is determined by considering the desired features of a solution (criteria). Different proposals for solutions can be compared on the basis of how well each one meets the specified criteria for success or how well each takes the constraints into account. (3-5-ETS1: Engineering Design)
